FINANCIAL FACTS

Wall Street Still Maintains Its Extraordinary Strength,

IT AMOUNTS TO STUBBORNESS.

No Symptoms of Misgiving Owing to the High Range of Prices - We are Entering Upon an Appreciable Abatement of the Extraordinary Surplus of Exports Over Imports that has Prevailed for so Long.

Special Correspondence of Intelligencer. NEW YORK, Feb. 25.-Wall street still retains; the extraordinary exhibition of strength developed with the opening of the new year. The strength indeed amounts to a positive stubbor ness of holding; and it applies equally to nearly the whole list. The extensive realizing of two or three weeks ago has left no signs of weakening in its wake; the stocks then sold appear to have passed into hands capable of holdthem through the ups and downs in prices; and those who were then sellers have again become holders, and, as such, are contributing to the general strength of the market. Indeed, it is safe to say that never in the history of Wall street has there been such evidence of the ability of operators to carry large lines of stocks and to hold

them with unwavering firmness. The pessimists have no place in the struggles of the market, nor do they appear to have any expectation that their opportunity will soon put in an appearance; they can scarcely find a pretense on which to summon courage to sell, and have to be satisfied with the merest crumbs of profit.

Such firmness at the present unusually high range of prices might very naturally be expected to give rise to some migrivings and to some important realizing by the more cautious class of operators. But there are no symptoms of any such feeling. No doubt there is, among the more experienced, an expectation that a time for realizing lies somewhere in the future; but nobody seems to think it near at hand; and where sales are made it is mostly to reinvest in some other stock which seems to have a better future. This extraor-invest in some other stock which seems invest in some other stock which seem to have a better future. This extraor-dinary confidence is not remarkable in view of the general prosperity of busi-ness, the spirit of hopefulness that per-vades every part of the country, the plain evidence that a great commercial expansion is in progress, the ease ney, the continued increase in rall road earnings, and still more the entire absence of any factor calculated to cast a doubt upon the continuance of these golden conditions.

It is true that some misgivings may seem to be suggested by the fact that we shall soon have to remit \$20,000,000 to Spain on account of the peace settlement. And it is quite possible that this operation, coming outside the ordinary transactions of the exchanges, may in some measure harden the local rate of interest. And yet, for these extraordinary times, this is a relatively small matter. The available resources for making the settlement are superabundantly ample. Outside the gold reserve, the treasury has an available cash balance in its vaults of \$86,000,000 and \$85,000,000 on deposit with the national banks. There is thus ample margin for the treasury avoiding any demand upon its depositories in this city calculated to sensibly disturb the loan market; and what it can do in that matter its quite likely to do. There is in Europe, however, a still large outstanding floating indebtedness due on demand to the United Statea? A slight advance in the rate of interest here would make it a paying operation to effect the \$20,000,000 remittance through bills drawn against these funds; in which case there would be no transfers of money in the operation, Spain collecting her award from our European deutors and the operation at this end heins confined to transfers of deposits, with little or possibly no effect upon the loaning ability of the New York banks. This remittance to Spain therefore, come when it may, its not likely to cause any noteworthy disturbance of the local money market.

As was expected, European holders of our securities, not satisfied with wholesale realizings at the high prices, also simultaneously went "short" upon them to a considerable extent, with the consequence that, during this week, they have had to buy freely at New York for their settlements, their purchases on Thursday being about 20,000 shares. It may take London some time to learn that the recent great advance in prices here means a permanently hisher range of values than they have been accustomed to, and it will therefore not be surprising if they help to sustain the mark seem to be suggested by the fact that we shall soon have to remit \$20,000,000

It begins to appear probable that we are entering upon an appreciable are entering upon an appreciable are entering upon an appreciable abatement of the extraordinary surplus of exports over imports that has prevailed for the last eighteen months. The imports are gaining upon the figures of several months past. The January figures are about \$10,000,000 below those of 1895 and 1896 respectively; but they exceed those of 1895 by \$7,100,000. The exports for January exceed those for the like month in any previous year, being \$7,500,000 above those of 1898, the next highest antecedent year—but they fall \$13,200,000 below the average for December, November and October; which is no more than is due however, to the usual curtailment of shipments after the close of the year. The January excess of merchandise exports over imports however, has fallen to the standard of one year ago, namely, \$57,000,000; which is \$12,700,000 below the balance for December, \$20,000,000 below November, \$25,000,000 less than October and \$14,400,-000 ever September, Still, the January balance is at the rate of \$885,000,000 per annum. These facts indicate that the accumulation of balances to our credit in Europe must have very much more than sufficed for offsetting the extraordinary return of home securities since the beginning of January; and it seems reasonable to infer that the liquidation abatement of the extraordinary surplus the beginning of January; and it seem.

WHOOPING

One of the most distressing sights, is to see a child almost choking with the dreadful whooping-cough. Give the child Dr. Bull's Cough Syrup, the greatest pulmonary remedy, and re-lief will come at once, the coughing spells will re-occur less frequently, and, in a few days the sufferer will be spells will re-occur less frequently, and, in a few days, the sufferer will be entirely cured. No other remedy can boast of so many cures.

Dr.Bull's Cures Whooping-Cough quickly. Doses are small and pleasant to take. Doctors tecommend it. Price 25 cts. At all druggists.

promptly curs the cold. Price 25 cts. All Druggi Of m'I'rs, Seabury & Johnson, N.Y., if upobtains

still a very large sum to our credit

upon our demand.

In view of the high range that prices In view of the high range that prices for most of the active stocks have now attained. I still continue to advise confining transactions to quick turns—buying conservatively on the reactions and being satisfied with moderate profits. Such opportunities are likely to be of every-day occurrence hereafter.

HENRY CLEWS,

WARM WORDS

In the House—Cannon Accuses Oppo

sition Speakers of Treason.
WASHINGTON, Feb. 26.—Mr. Cannon, in the house, yesterday afternoon, declared that if speeches made by Mr. Simpson and others on the floor yesterday had been made in Manlla, they would have been tried by a drumhead court-martial, and shot.

The house continued work on the appropriation bill yesterday, but failed to complete it. Considerable animosity was developed during the debate, and there were sharp passages between Mr. Grosvenor and Mr. Cannon, on one hand, and Messrs. Simpson, of Kansas and Cochran, of Missouri, on the other, Mr. Lacey, of Iowa, denounced the other side generally for firing into the rear of General Otis by sounding the praises of Aguinaldo and Agoncillo upon the floor of the house. While As-ulnaido was being compared to George Washington by the gentleman from Kansas (Mr. Simpson) and others, American soldiers are being killed and wounded.

When we captured Manila," said he dressing the opposition, "your George

wounded.

"When we captured Manila," said he, addressing the opposition, "your George Washington wanted to enter and loot it. With the evidence that Aguinaldo planned a massacre of our troops in Manila before them, the gentleman from Ohio (Mr. Lentz), might have withheld his comparison of Aguinaldo with Patrick Henry."

Mr. Grosvenor said it is treason now to stop and hesitate as to whether our soldiers should be defended. He denied that there had been any alliance with Aguinaldo, and said that at the proper time he would produce the record. The first order of the President after the fall of Manila had forbidden any and all alliances of any character with any one. He referred to Aguinaldo as a "scallawag."

"I can say what I desire to in two

all alliances of any character with any one. He referred to Aguinaldo as a "scallawag."

"I can say what I desire to in two sentences," said Mr. Cannon. "If the speeches made here yesterday by Mr. Simpson and others had been made in Manila they would have been arrested, tried by drumhead court-martial and shot. (Republican applause and Democratic jeers). The United States has and will continue to exercise sovereignty in the Philippines. If they are obstructed, the power of the whole people, as represented by the army and navy, will see to it that our authority is maintained, and the rocks and mountains will fall upon any individuals or any party which seeks to obstruct us." (Great Republican applause).

Mr. Simpson rose to a question of personal privilege, to answer the statement of Mr. Cannon that if he (Simpson) had made his speech in Manila he would have been court-martialed and shot. Perhaps that might be said Mr. Simpson, derisively adding: "But to be shot at Manila is better than to be shot here by an old muzzle-loading brass Cannon." There was great laughter at Mr. Simpson's pun.

He was thankful, he said, that the time had not come when men are shot for expressing their views. He had not, he declared, criticised the soldiers, but he gloried in their heroism; but the blood of those brave soldiers from Kansas and elsewhere who had fallen at Manila is on the head of the President and commander-in-chief of the army.

A OHIO MINERS TO SUSPEND.

Conference at Columbus Ended Without an Agreement.
COLUMBUS, Ohlo, Feb. 26.—The con-

of the Ohio miners and operators adjourned without an agreement being reached, and the prospects are that there will be a suspension of work in the Ohio mines on April 1, when the Chicago agreement expires. The oper ators proposed that the same prices for screened coal and run-of-mine as prescreened coal and run-of-mine as prevails in the thin-vein mines of the Pittsburgh districts be accepted but the proposition was unanimously rejected. The Ohlo miners are bound by the Pittsburgh agreement to accept no price under that fixed by the Chicago agreement, which makes the run-of-mine rate in Ohlo 47 1-7 cents per ton, the rate insisted upon by the Ohlo operators being 42 2-3 cents per ton. The price for screened coal in the two districts is the same, and the operators contend there should be no difference in the run-of-mine rate. When the operators' proposition was rejected they proposed to submit the matter to arbitration, but this was also refused by the miners. The operators submitted figures showing that, while the coal production in all the other states of the competitive field had increased steadily, the productions in Ohlo had decreased since 1892 as the result of competition with Pennsylvania and West Virginia coal. The net production of Ohlo in 1882 was 9,450,000 tons; in 1897, 12,196,542 tons; 1897, 20,672.750 tons; Pennsylvania, (bituminous), 1882, 2,460,000 tons; 1837, 14,248.159 tons; Indiana, 1882, 1,976,470 tons; 1897,4,151,169 tons.

WASHINGTON, Ind., Feb. 26.—Fred-WASHINGTON, Ind., Feb. 26.—Fredvails in the thin-vein mines of the

WASHINGTON, Ind., Feb. 25.—Fred-crick Dilcher, of Ohio, member of the National Board of the United Mine Workers of America, is here to settle the strike of the miners of the Cabel Coal Company, and is confident of suc-cess.

Will Get Cold Comfort.

LONDON, Feb. 26.-The Filipino agents in London have received a cable gram from Agoncillo, the agent in America of Aguinaldo saying the former is coming to Europe in order to endeavor to enlist the sympathies of European governments.

A Frightful Blunder

will often cause a horrible burn, scald, cut or brulse. Bucklen's Arnica Salve, the best in the world, will kill the pain and promptly heal it. Cures old sores, fever sores, ulcers, bolls, felons, corns, all skin eruptions. Best pile cure on earth. Only 25 cents a box. Cure guaranteed. Sold by Logan Drug Co., druggists.

FINANCE AND TRADE. The Features of the Money and Stock

Markets. NEW YORK, Feb. 25.—The stock market worked fractionally lower to-day on dealings of half a million shares during the short session. The Philippine situation continued to be used as a bear argument with the professional element, which was largely in control of the market. There were various rumors afloat favorable to the specialties, including Tobacco, Sugar, American Steel & Wire, International Silver and Third Avenue railroad, but lacking of confirmation. Insiders were said to have given assurances that the regular dividend disbursement might be expected in Sugar and forthwith the stock rose over five points from the lowest, It was asserted that Tobacco carnings were large and that the company was backing those securing control of the Cuban cigar making plants, but this was in a measure offset by denilals from Union Tobacco company sources that there would be a consolidation with the American Tobacco Company which made only a fractional gain. Reports of the acquisition of other concerns and earnings gossip were responsible for a sharp rise. In American Steel and Wire, only a fraction of which was retained. Favorable trade advices lent strength to international silver. The feature of the dealings both here and abroad was the large demand for New York, Ontario & Western on the expectation that because of its new acquisitions in the coal lands the company would profit by any improvement in the anthractic trade. The stock gained two points on transactions of almost 100,000 shares. In the general market the opening was hesitating, but a pronounced tone soon developed and prices ran off sharply on liquidation in the specialties and guecessful drives against the Grangers, Atchison preferred and Northern Pacific. Renewed buying of Sugar and like properties railled the market, but the bank statement fuifilled bear expectations, showing another decrease in reserve of over \$4,000,000 and an increase in loans of nearly \$13,000,000 and brought heavy realizing, particularly among the high-priced stocks. Toward the close Sugar and Tobacco started upward again and the general market tailed on.

The movement of stock prices for the week was extremely irregular, with losses prevailing among the standard stocks, including Northwest 4, Burlington 3, New York Central 2%, Pennsylvania 2%, and declines of 2% for Southern Pacific and Stocks, including Third Avenue railroad 44½, Consolidated Gas 13%, and Brooklyn Union Gas 6. Among the industrials the maximum gain was that of Tobacco 31½, while the preferred rose i, American Steel and Wire stocks while the part professional manipulation played in the week's market. Other notable advances were New J

the week's ould market, while some-what irregular showed in good under-tone. Striking gains were made in many issues which hitherto moved narrowly. United States new 4s cou-pon advanced ¼ per cent in the bid price.

BONDS AND STOCK QUOTATIONS.

| December | Color | C NEW YORK MINING STOCKS.

Breadstuffs and Provisions.

CHICAGO-Realizing by longs today at a %c advance weakened prices in the wheat pit, and May wheat left off with a net decline of %c. Corn and oats closed unchanged. Pork and ribs are a shade lower and lard unchanged.

Wheat started ,a shade lower, al-though after the close yesterday on the curb it had given evidence of much strength. The period of hesitation to continue the advance, however, was short, as there was a good deal of anxiety among the traders over the Manila situation, and May wheat, which started at 73½673½6, in a very short time rose to 74c, and a little later it went still higher. Chicago receipts were 125 cars, of which 14 were graded contract. Minneapoils and Duluth received 335 cars, compared with 190 cars for the corresponding day a year ago. Primary western market receipts were 434,000 bushels, whereas 333,000 bushels were received the same day last year. Clearances from Atlantic and Gult ports amounted to 476,000 bushels. After the flurry near the opening the fluetuations were merely the result of the curb it had given evidence of much

expressions in the pit of the faith of the two parties to the deal, each taking its turn. As soon as short selling slackened the price ceased to decline, and longs refused to second the efforts of the other party by sacrificing holdings. Under the circumstances the price rose to 74½ for May wheat, and at that figure there appeared to be some inducements for longs to sell. Realizing set in, and brought about an appearance of heaviness which encouraged short sellers. Bulls sold out at from 74½c down to 73½c. Then the bears took hold, and hammered the price from the latter figure to 72½c. After that the market became very weak, and closed at 72½G7s for May. Light receipts and advices from the country that the movement would be much smaller in the future strengthened corn. Shorts covered freely, and there was good buying for the long account. At the advance, however, when wheat started to decline realizing set in, and the early gain was all lost. Receipts were 411 cars. May opened a shade lower at 35½ of the 35½c advanced to 35½c, then sold off to 35½c at the close.

to 36%c, then sold off to 36%c at the close.

Heavy covering by shorts and a good cash demand strengthened oats. Receipts were large, 442 cars. May began a shade lower at 27%g28c; rose to 28%c; then reacted to 28c at the close. Diminishing receipts of hogs and higher prices at the yards started the provision market firm. There were free sellers at the advance, and not sufficient spirit in the bidding to withstand the pressure of offerings. May pork opened 5c higher at \$9 55, declined to \$9 55, and closed at \$9 57%. The range in lard and ribs was narrow.

Estimated receipts for Monday:
Wheat, 70 cars; corn, 410 cars; oats, 195 cars; hogs, 35,000 head.
The leading futures ranged as follows;

Dry Goods.

Dry Goods.

NEW YORK—There has been much activity during the week in cotton goods. The steady advance in print cloths to 3%c has covered all lines of staple cottons, and printed and converted goods with it. The majority of the lines of prints are now "at value," and the same is true of many bleached goods lines and other staple cottons. Where prices were fixed they were advanced in proportion to the increase in the price of the gray goods. Singularly, this seemed to have but little effect on the day trading in all the standard lines. In some quarters a heavier business was done after advances were made than before. In prints the business passing was quite heavy, and in some quarters only a small percentage of the seasonable goods are obtainable, manufacturers' looms being diverted to other goods for later consumption. The export trade has continued heavy in the face of the broadening domestic demand, making a total of heavy proportions for the week. The week's sales of prints have bee very heavy. Practically there are no extras obtainable, and futures are sold for a considerable time ahead. Metals.

NEW YORK—The brokers' price for lead is \$4 20 and for copper \$18 00. The metal exchange issued no report to-day.
